

TALPAN DANIEL

QA Tester with 3+ years of hands-on experience in manual testing and database validation. Currently transitioning into test automation. Highly motivated to contribute to quality-focused teams, with strong analytical thinking, communication skills, and attention to detail. Passionate about learning modern QA tools and CI/CD practices.

EXPERIENCE

QA TESTER

Ipsos Interactive Services S.R.L - 2022 January - Present

- Performed manual testing for online research platforms, validating both data logic and UI behavior
- Created test scenarios and syntax for various data structures, adapted to constant changes
- Reported bugs clearly and concisely, working closely with developers and product teams
- Prioritized defects and issues based on business impact and deadlines

FINANCIAL CONSULTING

OVB Allfinanz Romania

2025 February - Present

- Improving financial education
- Interpersonal communication

PROJECTS & LEARNING INITIATIVES

Game Tester – Freelance

- Participated in structured testing sessions for unreleased games and prototypes
- Reported usability issues, game-breaking bugs, and performance problems
- Followed pre-defined scenarios or explored freely to discover edge cases
- Contributed to feedback surveys and bug-reporting systems used by indie and mid-size developers

Game developement

- Learning Godot by creating my own game
- Creating game assets from scratch
- Developing complex logic for the game
